

Invest your HSA today to benefit tomorrow

Health Savings Accounts (HSAs) are often thought of just for healthcare savings. But they can also be a powerful addition to your investment portfolio. Investing your HSA funds can help you grow your account to save for future healthcare expenses or your retirement nest egg.

Investing your HSA: A healthy boost for your future

1

The only way to get three tax perks:

You don't pay federal taxes on contributions, withdrawals for qualified medical expenses, or investment earnings.

3

The money is yours — for life:

HSA funds carry over every year, even if you change jobs or retire.

2

Build long-term retirement savings:

Investments cover future healthcare costs and build your retirement savings.

4

Move funds as needed:

You can transfer investment funds back into your HSA cash account at any time to pay for IRS-qualified healthcare expenses. Plus, because you need a minimum of \$1,000 in your HSA to invest funds, you'll always have easy access to cash for short-term medical expenses.
